Local to Global

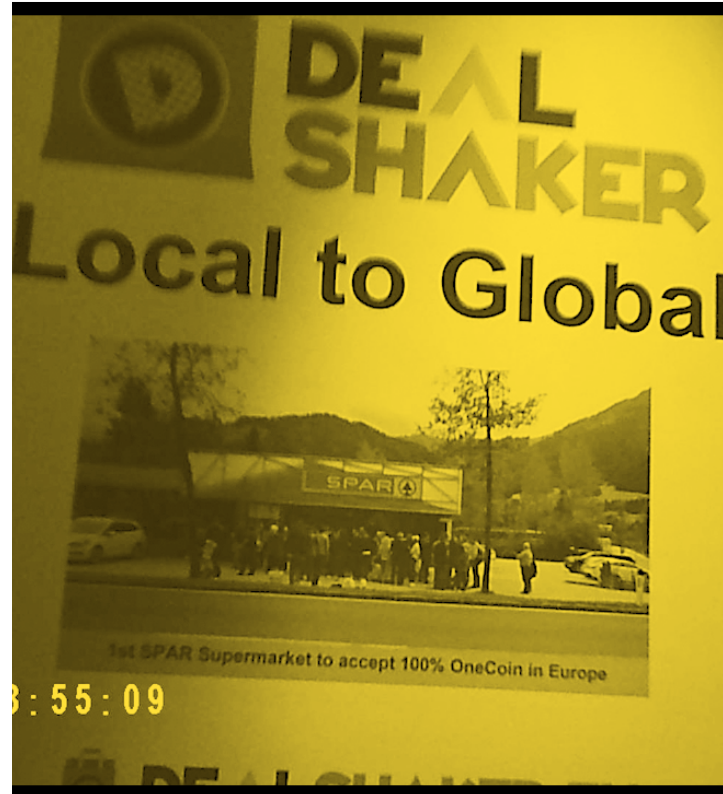

What is One Coin? Millions of people around the world are mining One Coin today. The reason? It's a platform for innovation that changes the financial industry. Put simply it gives instant access to easier, faster and low-cost financial services. You do not need to go to your traditional financial institution or escrow agent to send money to your loved ones.

Fast. We make transactions every minute hence you are able to send money from any part of the world to another in a minute. Easy. Everyone can transfer money with One Coin. You only need your phone to do so. Safe. To prevent money laundering, identity theft, financial fraud and terrorist financing One Coin has implemented KYC 'know your customer' procedures thus preventing any possible misconduct by its clients.

People join One Coin for a reason. To learn about cryptocurrency, to mine the coin, to transfer money to make payments without the need for expensive or unsafe intermediaries, to deposit money and to save over 80 percent in remittance costs.

Inspired by Dr. Ruja Ignatova's strong vision to provide access to financial services for everyone regardless of income social status and ethnicity One Coin has become a global company with a community of 3.3 million members worldwide. That's bigger than some smaller countries.

One World. One Coin. Join the financial revolution.

Testimonials

ROGER PAYNE International Marketing Associate

A friend of ours in Ireland says will you have a look at this and we said 'Well yeh we've heard about cryptocurrencies and yeh yeh yeh' and they said 'Look will you sit down with this guy.' It was the 16th of May, we sat down. Just an Irish guy. Irish farmer. Irish farmer's son actually. And we sat down and he told us what had happened to him and he just showed us. We were gonna go 20 minutes, we were there for 2 and a half hours. Then it went 3 hours and we said 'No we're in. We're definitely in.'

MD Diamond

Now if we grab the opportunity for crypto-currency we'll get benefit, we can help other people. My brother, my sister, all the family, they all are involved with this coin. If I don't believe in this, if I can people, I don't tell my family to invest on it. Even my brother in law has got more coin than me! It's true, he never came to the event, he doesn't do networking, he doesn't do anything. But he got the coin because he's researched, I have told him a lot and then he bought the coin. So this is how it works. Networking is a very powerful thing.

MR ALMAZ Newly Promoted Blue Diamond

Before this business I was a manager in a betting shop.

DIAMOND KHAN Global Leader

Once you let the lion in, he will eat everyone alive. But to capture the lion, that's the game.

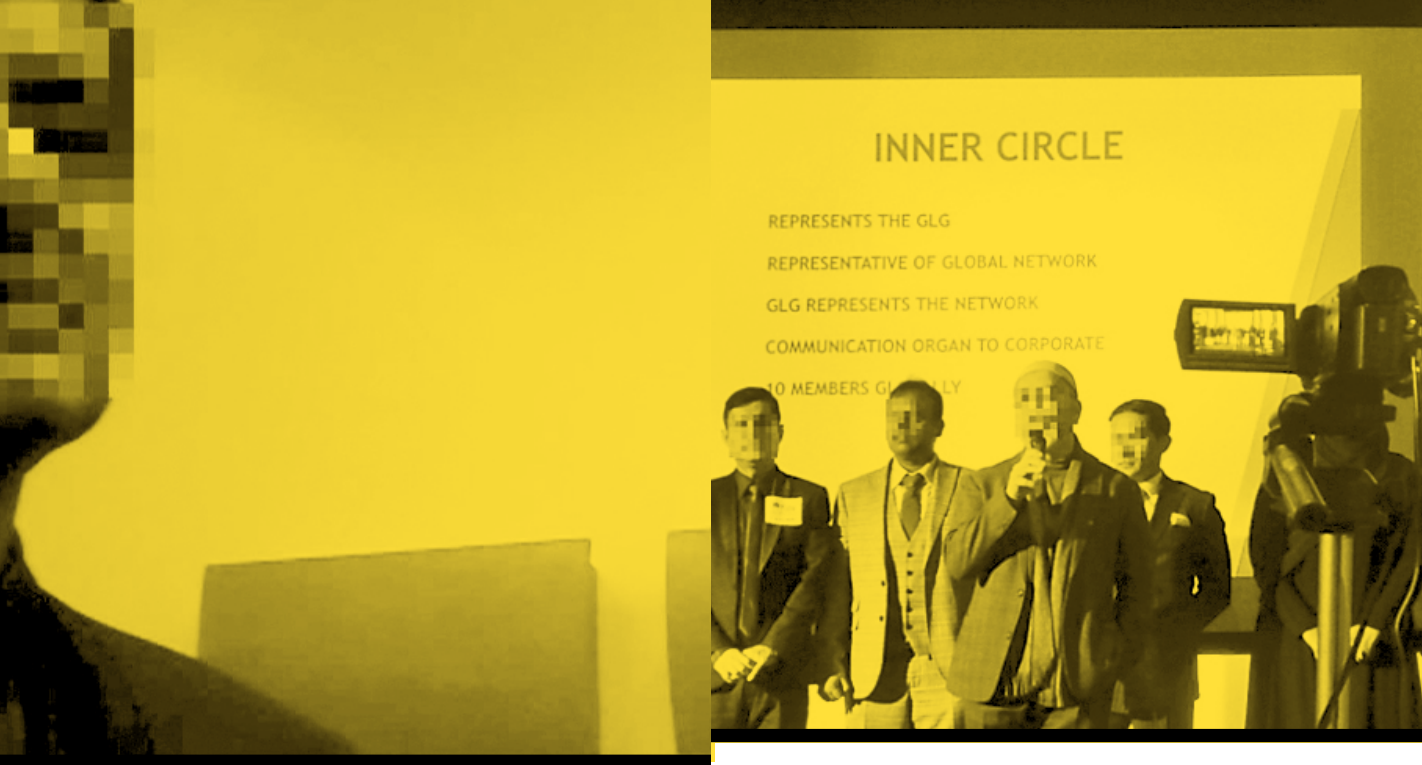

DR ZAFAR Black Diamond

My name is Dr Zafar and I was doctor of medicine before I joined this company, and after that what do people call me? Doctor of One Coin!

MR RIPON Diamond Leader

Recently I've been away about 6 weeks, the government invited me. Would you believe in my life I never had 45 hours journey! Leaving my home and reaching to my hotel, to that destination. So I went from London to America to New Zealand to Samoa Island because the Prime Minister wanted to see me. Next thing he arranged and summoned his governors from the central bank for me to appraise them. Can you imagine? That was the biggest achievement in my life!

MR PUNCOZ

Upcoming Blue Diamond from Nepal

If you believe the vision of Dr Ruja. If you see the eco-system of the company and if you believe who brings you in this event. This opportunity can make you a millionaire or billionaire.

MR LUQMAN Diamond

This is the vision for the mass market, this is very true, very honest. If you have a true vision you have a captain on the ship. And if you look out on the market can you be able to find a creator of the cryptocurrency around happening within the platforms? All these Mickey Mouse cryptocurrencies are there, but for how long?

FAHMEJANA & HER HUSBAND Double Diamond

My husband and I are partners, double diamond. We would like to change people back home in their lives. This company will create people a job, financial freedom. Here, back home, we are global, we are one community, we can change the world. I believe we can go further and a lot of Asia and Africa will lift out of the poverty when the company comes out and there will be a lot of millionaires coming out in the Third World.

CHRISTI CALINA Guest Speaker

Who loves to go on holiday? Who wants to go almost free? You choose where you go, with who you go and where we stay yes. You want in Bali, in Indonesia, you choose. Maybe somebody even wants to go now in Croatia, maybe to Zagreb. Smart people! This is how its working.

Lets see what we can buy in Romania. A restaurant in a city Lași, an Asian restaurant, very good food. Very good and very nice. With this merchant we start a big project in Romania and I talk with this guy, 'If I buy 20, 30 menu everyday and I pay you in One Coin I can give to poor children. And with this merchant now we give food everyday for 140 kids.

IRON MAN First UK Diamond

You really need to kill yourself to get that dream done. I almost did. And within 24 hours I'd almost killed myself to become Diamond. That's why they call me Iron Man. You know I tell everyone 3.3 million people around the world know me as Iron Man. How amazing is that! There's a fake guy who flies around calling himself Iron Man. I'm the Iron Man!

IM: Where are you from, originally?

LC: Sudan.

IM: Sudan. So you're as poor as Bangladesh, in a way. So, people in Bangladesh for them to actually, I mean, I know there are lots of poor people in Sudan and North Africa and certain other places, as well as many in Bangladesh and Pakistan. Those people, for them to change their lives its gonna be difficult. I believe this is my year. I'm 52, almost 52 now, and after working working working for all this time, I believe this year, I'm going to be a multimillionaire.

LEYLA Victim

It took me 20 years to save up this money. I made lots of sacrifices. With 2 jobs, whilst studying and the aim was ideally to get into the property ladder, use it for my marriage as well as help my mum and my brother.

MR ASAD Blue Diamond

When I come to this country, two and a half years before. This is me, my wife and my new kid. I come to this country with a big degrees, MBA in marketing. At the moment I'm doing PhD Fintech in the university of Oxford but I was doing shelving in Sainsbury's. So whatever you do in life, the people who are coming from hard work and a very limited scope.

I remember me and my wife used to see each other in train station, Mile End station, for half an hour. Because I have to work full day and my wife had to work full night. And this middle class and lower middle class families in UK, in Europe, anywhere. We live life same. And at the end we call it 40-40 scheme. You live your life 40 years, 40 hours a day and after 65 or 60 years you end up in the house sitting in front of the television; and the television says you 'Now it is time for a funeral scheme.' Because you don't know your kids will be there to support you or not, because everyone is busy.
